Experience

Math Instructor / Grand River Chinese School

December 2017 - PRESENT, Resurrection Catholic Secondary School

Teaches mathematics to a full class of grade 5-6s. Based on a self-designed curriculum to spark learning intuition and curiosity. Finds lesson plans and topics from obsessive self-learning and self-research through numerous areas of mathematics.

QCSYS 2018 / Quantum Cryptography School Young Students hosted by IQC

August 2018, University of Waterloo

A two-week enrichment program to learn quantum cryptography. Met fellow high-school physicists from all around the globe. Visited laboratories, met renowned physicians and studied a cutting-edge field of quantum mechanics.

Hack the North 2017 and Hack the North 2018 / Canada's Biggest Hackathon

September 2017, September 2018, University of Waterloo

Amazing event! Shipped an application that allows visualization of transactions and sales density on a map. Built with TD Da Vinci API and TD bank data.

JAMHacks / First Place Prize

April 2016, Sir John A. Macdonald High School

Teamed up with Patrick He, Calder White, and Fengchi Wang. Built (Classroom connect) a web platform for WRDSB students. Monitors assignments, grades and can pair up students as partners.

Education

Sir John A. Macdonald Secondary School / High School

September 2016 to June 2020 (Expected to Graduate), Sir John A. Macdonald High School

Participated in DECA, Junior Football and Junior Rugby. Devoted as a computer science club executive and hackathon organizer (JAMHACKS 2019).

Laurelwood Public School / Middle School

September 2014 to June 2016, Sir John A. Macdonald High School

Graduated with the sole Laurelwood Galilean Mathematics Award of 2016.

Awards
